

Society „Our children“ Opatija

*For the development of civic competence for children, it is not enough to only know human rights, political concepts and processes, but to enable them to practice democratic principles within school life and the community. Children's involvement and participation is also essential in these moments where we are unable to meet in person because of the COVID-19 pandemic. With this project, we aim to provide education for children's rights, democratic and digital citizenship to children of NEF members, children's councilors and mentors through an informal form of education. The provided activities are educational interactive online workshops "Full of knowledge"; Online campaign "Children's rights first"; Online meeting of NEF members with decision makers at local, national and EU parliamentarians from Croatia. By participating in project activities, users will increase civic and digital competences, and we will sensitize children and adults to the need to involve children in decision-making processes from the local to the EU level. The project will contribute to the networking of NEF members and councilors of children's councils from different parts of Croatia.*
